Family Office

Canada's Gold Standard in Governance Education Since 2003

"The Directors College recognizes that board members are faced with new challenges to innovate, grow, compete and govern while operating in a state of unpredictable change. Leaders committed to responsible and sustainable governance must continually adapt, develop their skills and evolve to add enhanced value. Our Chartered Director (C.Dir.) Program brings strategic wisdom, diversity of thought and innovative approaches to the boardroom, raising the art and impact of directorship. In 2023, The Directors College's 20th year, we celebrate the Chartered Director graduates who incorporate ethical principles and diversity in boards, foster cultures of equity and inclusivity and have embraced mindful leadership. We are pleased to welcome new Chartered Director (C.Dir.) graduates into our diverse network of distinguished alumni."

Dr. Michael Hartmann, Principal, Directors College
